

Session Initiation Protocol

American Telephone Company's SIP (Session Initiation Protocol) has become a catalytic force helping shape today's telecommunications industry. Our SIP service is designed for organizations of all sizes and provides calling packages to meet the needs of your business.

Benefits:

- NO MORE RATE CENTER RESTRICTIONS! Port existing number's to ATC's SIP product from any major telecom provider
- DID/DOD service available
- Turn up's in day's not weeks
- 24/7/365 monitoring
- Setup multiple inbound and outbound routes
- Custom calling plans

Flexibility:

- Off hours porting and installs, ATC works around your schedule
- NO CALL CENTERS TO DEAL WITH! Direct ATC NOC technicians to help manage your port, turn up, and any troubleshooting

Savings:

- Lower usage related charges
- Volume and term discount plans provide substantial savings on already competitive ATC rates
